Пример текста

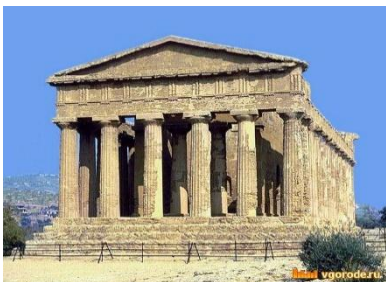

В этом произведении воспроизведены все мельчайшие подробности, какие только может передать тонкость живописи. Поэтому глаза имеют тот блеск и ту влажность, какие обычно видны у живого человека... Ресницы... не могли бы быть изображены с большей естественностью. Нос со своими прелестными отверстиями, розоватыми и нежными, кажется живым. Рот, слегка приоткрытый, с краями, соединёнными алостью губ с телесностью своего вида, кажется не красками, а настоящей плотью. В углублении шеи, при внимательном взгляде, можно видеть биение пульса. Улыбка дана столь приятной, что кажется, будто ты созерцаешь скорее

божественное, нежели человеческое существо; самый же портрет почитается произведением необычайным, ибо и сама жизнь не могла бы быть иною.

*Её рождение прощанию сродни,
 Настолько члены хрупко-эфемерны.
 Да, это ты, твой беспощадно-верный
 Портрет, любовь. Прекрасней западни
 И простодушнее не выдумать, зато
 Уж и безжалостней, мучительней, жесточе.
 А братья-ветры вот: целуют в очи
 И сыплют розы сквозь ветра решето.
 Уже несут цветное полотно
 Укутать стан прозрачной тканью долгой.
 Когда б не раковины плотик, ты иглой
 Ушла бы, кажется, на сумрачное дно...*
