~~Russia is the largest country in the world that can give~~ In this world there are a lot of countries that can give food, natural resources and cultural activities to the world.<sup>21</sup>

As an example, Mexico has a delicious meal called "taco", Italy has pizza and Japan has sushi, that is a rolled fish with vegetables made by Japan's recipe. All this is being made all over the world.<sup>18</sup>

Russia and USA are one of the most countries that have a gigantic amount of natural resources.<sup>25</sup> They both sell ~~the~~ resources like gas, gold, diamonds, coal, and energy to other countries, to the Europe most. And from all over the world people buy them. Gas - to warm houses, and flats, gold and diamonds to make bracelets and other things to make people more beautiful.<sup>122</sup>

Countries like USA, Russia, all Europe and everywhere have a lot of activities. As an example <sup>they</sup> USA has a Christmas <sup>142</sup> China has Lunar New Year. Brazil got a carnival where participate over half million people and considered one of the largest festivals in Brazil. People from all over the world are coming to see or to take ~~part~~ <sup>part</sup> in it.

I believe that <sup>the</sup> world trade and <sup>cultural</sup> exchange are very important and need to be everywhere in every sphere.
